

THE BLAIRMORE ENTERPRISE

VOL. XXXIV, NO. 26.

THE BLAIRMORE ENTERPRISE, FRIDAY, JULY 2, 1943.

CENTRAL UNITED CHURCH

BLAIRMORE
Rev. E. B. Arrol, B.A., Minister

Services Sunday next:
11 a.m., Combined Sunday Schools.
7:30 p.m., Public Worship.

ST. LUKE'S CHURCH, BLAIRMORE

Rev. J. R. Hague, A.Th., Incumbent

Services Sunday next—

7:30 p.m., Evensong and sermon.

SALVATION ARMY, COLEMAN

Lieuts. R. D. Marks and S. Nahrney,
Officers in charge.

Sunday services (in the I.O.O.F.
hall, temporarily)—

11:00 a.m., Holiness Meeting.

8:00 p.m., Sunday School.

7:30 p.m., Salvation Meeting.

Tuesday: 7:30 p.m., Red Shield Aux-
iliary and Home League.

Thursday: 8 p.m., Praise Meeting.

Fridays: at 6 p.m., Boys' Cubs.

BLAIRMORE Gospel meeting every
Friday at 8 p.m.

Funerals and dedications on ap-
plication to the local officer.

The skin of an adult weight about
eight pounds, according to an eminent
health columnist. Rather than go
around in the raw, of course, we don't
mind carrying the extra weight. But,
of the record—Don, does that include
the well-known skin of one's teeth?

BLAIRMORE AGAIN HIGHLINER

Results of the War Savings Stamps
sales contest for the period ended
June 14th showed Blairmore West
Ward school to be again leaders and
winners of the beautiful large framed
pictures of Prime Minister Churchill
and President Roosevelt, and, through
the kindness of Group Captain Ham-
pton, of the Macleod, SFTS, the flag
commemorating the achievement was
flown to Blairmore and dropped in the
presence of a gathering near the
school grounds on Friday afternoon.
The plane carrying the pennant also
had as passenger Principal Donald
MacPherson of the local schools, who
took occasion to drop a message to
his wife and family. The plane was
flown at a very high altitude, and had
the event to have been set to take
place half an hour later a rainstorm
and wind would have interfered ser-
iously.

The junior room of the West Ward
school topped the Pass for the second
time with a percentage of 708, win-
ning the small picture of Churchill-
Roosevelt. They were also winners of
the Elks' \$5 War Savings certificate,
which was presented to Cecile Mil-
lond, who was declared the individ-
ual winner by draw. This school also
received the large Churchill-
Roosevelt picture for the highest per-
centage of the district, 517.6, and re-
ceived the large Victory Flag.

Percentages at the other district
schools, in order of merit, were as
follows: Hillcrest Mines 380.5, Cole-
man Cameron 325, Blairmore Central
314.6, Frank 202.1, Coleman Central
202, Bellevue Central 190.6, Bellevue
Maple Leaf 113.

Coleman Cameron school was allowed
a 50 per cent quota on behalf of
their junior Red Cross activities.

PLACE ORDERS FOR ALBERTA ROAD OIL

Orders have been placed for 75,000
gallons of asphaltic oil for surfacing
Alberta highways this year, according
to information received from the pro-
vincial public works department by
the Alberta Motor Association.

The requisitions have been passed
and it is anticipated that the neces-
sary federal authorizations will be
given. The material will be used for
maintenance and repair purposes and
not for new construction, such condi-
tions having been laid down by the oil
controller, last year in making the sur-
facing material available.

While there is a great deal of re-
pair and patch work to be done on
600 miles of main highways in the
province, officials believe that the sur-
facing supply that is sought will aid
materially in improving conditions
for motorists.

At the meeting of the AMA provin-
cial directors in Calgary recently, dis-
cussion showed that it was generally
conceded that the majority of the hard
surfaced roads were in a deplorable
condition and extensive maintenance
work was justified this year.

Right Rev. Philip Selwyn Abraham
was enthroned recently as Lord Bishop
of Newfoundland, Anglican church,
succeeding the late Bishop White.

The marriage took place at the
Nobleford Lutheran church on the af-
ternoon of June 19th of Martha Min-
nie Millie Zeck, daughter of Mr. and
Mrs. Gus Zeck, of Nobleford, to Tony
V. Poch, RCE, son of Mr. and Mrs.
T. F. Poch, of Frank. Rev. V. Eichen-
laub officiated. The bride was attended
by her sister Louie, while Frank
Poch, brother of the groom, acted as
best man. Seventy guests sat to the
wedding supper. Following the sup-
per, the happy couple made a honey-
moon trip to Frank, Alberta, and re-
turning took up residence at Wain-
wright. Mr. and Mrs. C. Poch, Mrs.
L. Poch and Mr. and Mrs. Lewis Poch,
of Frank, were in attendance at the
ceremony.

VICTORY AT MARETH

With the RAF in full attendance, General Montgomery used his favorite
outflanking movement with crushing effect at Mareth. When he saw that a
frontal attack would be costly in men and materials, he switched a strong
force round the Matmata Mountains to join the assault on the enemy's right
flank at El Hamma. Victory resulted. Many thousands of prisoners and much
war equipment fell to the 8th Army. Picture shows an 8th Army infantry
section moving through a wired position in the Mareth Line.

WILL URGE NAMING

FEDERAL ROADS BODY

Move to bring about the formation
of a Dominion road department has
been initiated by the provincial di-
rectors of the Alberta Motor Associa-
tion.

At their recent meeting in Calgary,
the directors passed a resolution
which is designed to bring about a
broader and more uniform roads pro-
gramme for the Dominion.

The AMA seeks to have federal leg-
islation passed to provide that no fed-
eral aid for road construction would
be given to a province diverting mo-
tor tax revenue to purposes other than
road construction.

Similar legislation has been passed
in the U.S. and it has had the effect
of barring states from merely using
motor tax revenue to finance general
expenditures. Reports have indicated
that many of the states now have leg-
islation themselves that prevents the
diversion of motor funds.

The AMA has fought for many
years for the "earmarking" of motor
funds for highway maintenance and
construction purposes.

Alberta has again defaulted, this
time a \$2,000,000 bond issue payable
in Montreal, Toronto, Edmonton and
London.

Alderman F. R. Freeze, of Calgary,
was chosen president of the Union
of Alberta Municipalities. G. Ford, of
Coleman, was chosen executive mem-
ber.

A post-war automobile to cost in
the neighborhood of \$400, is being
planned by Henry J. Kaiser, Pacific
coast shipbuilder. The engine would
be a two-cycle, sixteen-cylinder.

Mrs. Emery Smith, of Blairmore,
and her son, Max Brown, of the R.C.
NVR, are visiting in Cardston. Max,
a former Cardston boy who has been
stationed at Halifax, is home on leave.
—Cardston News.

MR. AND MRS. PETTIFOR

ARE PETTED AT CASTOR

Prior to leaving Castor to take up
residence in Coleman, Mr. and Mrs.
W. T. Pettifor were guests of the
Masonic and Eastern Star orders to
a joint farewell social. After a very
pleasant social, luncheon was served
by the ladies of the Eastern Star,
when a suitable gift was presented
to Mr. and Mrs. Pettifor. Following
a number of speeches, the meeting
closed with the singing of "Auld Lang
Syne" and "For They are Jolly Good
Fellows."

Mr. Pettifor was leaving for Cole-
man to take over the C.P.R. agency.
He had been a very active worker
in the community life of Castor and
will be missed. He had held the po-
sition of chaplain and warden in the
Masonic lodge and patron of the East-
ern Star. He is also secretary of the
Castor Board of Trade and exalted
ruler of the Elks. He has also held
office as lay reader in the Church of
England during the past year, relieving
the regular minister who is in war
service.

Tanganyika's rubber estates are now
prepared for full production, and the
training of African labor is going
ahead.

In Great Britain 85,000 women have
taken the place of men on railways,
and are working as porters, ticket
collectors, carriage cleaners, drivers,
laborers, signal and telegraph oper-
ators.

Helmut Leiner, 34, a German gar-
dener near New York, who pleaded
guilty to an indictment charging
trading with the enemy after an ear-
lier treason indictment had been dis-
missed, was sentenced to 18 years fed-
eral imprisonment. He acknowledged
aiding Edward John Kerling, one of the
Nazi saboteurs, who landed on Ameri-
can shores a year ago, by changing
two \$50 bills given him by Kerling.
Kerling was later executed.

8TH ARMY'S VICTORIOUS DESERT DRIVE

Day and night the Allied troops kept up their pressure on the retreating
enemy. They have taken a heavy toll of troops and equipment. Severe tank
losses have also been inflicted. Inevitably British and American tanks played
a big part. Here is one tank taking aboard fresh ammunition behind the lines.

SUCCESSFUL MUSIC PUPILS

Following is a list of successful
candidates in examinations held re-
cently by the Toronto Conservatory
of Music in Blairmore. Names are
arranged in order of merit:

PIANO — Associateship (ATCM)
Solo Performer's, Georgette Dau, hon-
ors.

Grade VIII, Elsie Arrol, pass.

Grade IV, Lorene Hobson, honors.

Grade III, Kenneth Seaman, first-
class honors.

Grade II, Florence Conlin, first-
class honors; Rita Koentges, Irene
Nykolychuk, Lloyd Drake, Ronald
Ostrenski, honors.

Grade I, Marion Gosse, first-class
honors.

VIOLIN — Grade V, Elsie Arrol,
honors.

Grade II, Valeria Martinek, first-
class honors; Joe Beizer, honors.

Grade I, Martin Stober, Eddie
Gregor honors; Annie Tarcon, pass.

THEORY — Grade V, Georgette
Dau, honors.

FORMER PASS RESIDENT
PASSES AT STRATHMORE

The death occurred at the family
residence, Strathmore, on Tuesday
of this week, of Ernest William Edward,
beloved husband of Mrs. Ruby White-
side, aged 57.

For the past nineteen years he has
held the post of chief clerk in the
chief engineer's office of the irriga-
tion headquarters of the C.P.R. at
Strathmore, prior to which he was
employed in Blairmore for a while.
Born in Metcalfe, Ontario, he came to
Canmore in 1902, where he remained
until 1912. He is survived by his wife,
Ruby; a daughter, Mrs. A. W. Black-
ley, Calgary, and one brother, Mil-
ford, of Metcalfe. The remains are
to be laid to rest at Calgary this
afternoon.

HILLCREST HAPPENINGS

The remains of the late Andrew
Semanek were laid to rest in Our
Lady of Lourdes cemetery on Sunday
afternoon last, following service con-
ducted in the Catholic church by Rev.
Father Anderson. Mr. Semanek was
in his fifty-ninth year. A native of
Austria, he moved to New York in
1892 and up to 1905 had resided in
various points in the U.S. He came to
Alberta in 1905, taking up residence
at Passburg, where he was married in
1912. He came to Hillcrest in 1915
and moved to Lethbridge in 1925
where he resided since. He had fol-
lowed occupation as miner for forty-
three years. He is survived by his
wife, Alice; four sons and one daugh-
ter, Frank and Andrew, of Hillcrest;
John of Vancouver; Alex overseas; and
Mrs. I. Reece, of Lethbridge; also two
brothers and two sisters, John,
of Vancouver; Mike, of Bellevue; Mrs.
C. Bogun, of Bellevue; and Mrs. L. Luini
of Hillcrest.

CWACS TO RELIEVE SOL- DIERS FOR ACTIVE SERVICE

After having completed a full month
of basic training, 125 members of the
Canadian Women's Army Corps will
graduate from No. 2 CWAC training
centre at Vermilion on Saturday. Upon
completion of their basic training,
these women are posted to various
units and military establishments
throughout Canada, thus releasing
men for active service overseas.

Of the 125 girls graduating, 21 are
from Alberta points, including Mar-
garet P. Millar from Blairmore.

At least 1,000 Saskatchewan teach-
ers will not be available for teaching
in the fall. Many of them have al-
ready enlisted in the armed forces and
will don uniforms right away. Others
have indicated they will go into war
industries and, if the employment is
to their liking, will remain there for
the duration.

BLAIRMORE TURTLE MOUNTAIN SQUADRON

Blairmore's Turtle Mountain Squad-
ron of the Air Cadets of Canada have
been declared winners of the Section
B trophy for general efficiency. The
squadron, organized only a year ago,
is being congratulated upon its splen-
did showing.

This trophy is to be held by Turtle
Mountain Squadron for one year, to
be competed for again in 1944.

Other winners were: Section A—
Edmonton, trophy; Lethbridge, shield,
Section B—Blairmore, trophy; Dis-
bury, shield (north); High River,
shield (south).

These same awards will be up for
competition again next year. One of
the main purposes is to provide air
crew for the RCAF. When recruiting
starts in the fall it is hoped that every
available boy will take the training.

A MESSAGE TO WOMEN

FROM THE RCAF(WD)

This is a message to mothers and
women's organization from the Royal
Canadian Air Force (Women's Divi-
sion):

You have had our invitation to be
present at the "WD's at Home," on
RCAF stations where these women
work and shoulder man-sized jobs,
and we just want to ask if you will
write to the RCAF station as sug-
gested in your invitation and let them
know that your organization is being
represented on July 14th next.

Get together with your club mem-
bers, arrive early, see a first-hand
picture for yourselves! You will never
regret this outstanding opportunity,
so drop your letter in the mail today
advising us that your club representa-
tive is going to be on hand at the
"WD's at Home."

They are really going to enjoy
showing you their station!

Despite prospects, tourist business
at Banff is showing surprises. One
hotel reports 50 per cent increase in
business between May 15 and June 15
over the same period of last year, and
storekeepers report better business
than expected.

July First sports in Blairmore were
not as well attended as was expected,
due to a large extent to the weather
man affording the first opportunity
for the season to take a run out of
town to view the country. However,
the programme was carried through
and much enjoyed. In the evening a
dance in the Columbus hall attracted
a record crowd.

It is said that the United and An-
glican churches are to take over what
is known as the Canadian Legion
Country Club property at McBain's
Lake, B.C., to be used as a summer
camp for the children of Fernie.
A committee of six business men from
each of the churches will be organized
to hold the property for the churches
and to operate the camp in the best
interests of the boys and girls of Fer-
nie. A similar move, with Lee Lake
as the objective, should work all right
for this section of the Crows' Nest
Pass.

DELICIOUS DESSERT MAKES THE MENU PERFECT

Canada's Householders know that custards and blanc-manges, quickly and easily made with pure, high quality Canada Corn Starch, are a delight with any luncheon or dinner menu.

At this time when Canadians are urged to "Eat Right to Feel Right," these delicious desserts will prove a welcome addition to the nutritious foods featured by the National Food for Fitness Campaign. Follow Canada's Food Rules for Health and Fitness.

CANADA CORN STARCH
A product of the CANADA STARCH COMPANY, Limited

Canada's Growing Navy

THERE HAS BEEN wide spread interest in the addition to the Canadian Navy of four escort destroyers, a gift of the United Kingdom. Our navy has undertaken to protect the western half of the North Atlantic convoy routes, and these ships will be of great assistance in carrying out this task. They will be appreciated by Canadians not only for their very great usefulness at this time, but also as a further sign of Britain's desire to support the Dominions in all possible ways. It is also an acknowledgment of the confidence of the British government that the officers and ratings of the Canadian Navy will use these ships effectively in the war against the powerful U-boat menace. Named after four Canadian rivers: the Saskatchewan, the Kootenay, the Ottawa and the Galtineau, there is no doubt but that these ships will give valiant service in protecting supplies and war materials bound for Britain.

Canadian Navy Is Expanding

The growth of Canada's naval power since the beginning of the war has been amazing, and it represents an achievement of which we may be very proud. At the beginning of the war, Canada's total naval personnel was 1,700, which is less than the number of men required for one battleship. Today, there are 60,000 men in the navy, and Naval Minister Macdonald recently announced that by next year this number would be increased to 90,000, which will make it equal, on the basis of manpower, to the pre-war strength of the Royal Navy. The number of ships has also increased rapidly, and at present the Canadian Navy has over five hundred fighting craft, including destroyers, corvettes, submarine chasers, mine sweepers and other vessels. It is believed that two more British destroyers may be added to the four which have already been given to us, and it is also believed that Canada will shortly build several aircraft carriers.

On Guard In The Atlantic

In guarding the western half of the North Atlantic convoy routes the Canadian Navy has assumed a difficult task and one which requires the best of both ships and men. Many Canadian sailors are from the Prairies, and few have had previous naval experience, yet they have proven themselves capable of carrying out this important part in the Battle of the Atlantic, and great credit is due to them, as well as to the workers who have produced the ships which they man. It is clear that Canada now occupies a place of importance as a naval power, and that it is playing a small part in the hastening of an Allied victory. It is expected that there will be little reduction in the strength of the navies of the Allied Nations in the years following the war, and we may look forward with interest to the future of the Canadian Navy.

HEALTH LEAGUE OF CANADA THE MINERALS IN OUR DIET

We hear a great deal about vitamins in our diets these days but we must not forget the mineral content of our food. The minerals are important in the proper formation of our bones, teeth and body tissues. When we have an insufficient amount of minerals these parts of the body are weakened or diseased. Calcium is necessary for blood clotting and for strong bones and teeth. Phosphorus is responsible for a healthy nervous system. Iron is necessary for the formation of the red blood pigment and it protects us against nutritional anemia. Copper aids in the utilization of iron.

Milk is our richest source of calcium and we should include three glasses of it in our daily diet. Cheese has a higher percentage of calcium than milk as it is a more concentrated food, so if we could add a small amount of cheese to our daily menus it would be to our advantage; cheese is an excellent meat substitute. Other foods we should eat for their calcium content are beets, turnips, cauliflower, carrots, celery, asparagus, and beans.

When we take milk for calcium we will also get a fair amount of phosphorus. Lean meats, fish, eggs, cheese, nuts and whole wheat cereals contain appreciable amounts of phosphorus.

Liver, pork or beef, is an excellent source of iron so we should be on the lookout for new appetizing recipes for cooking it. Other organ meats such as heart, kidney, sweet breads are also high in iron. Dried peas and beans, eggs and molasses are good sources of iron.

We will get sufficient copper from many common foods. The lack of iodine causes goitre which is found in the inland provinces. Nowadays it is possible to buy table salt which has iodine added to it so we should use iodized salt all the time especially when we have little or no salt water foods.

We should bake and steam vegetables not only for the vitamin preservation but also for the mineral content. Because a certain amount of the latter is lost in the cooking process we should cook vegetables in as little boiling water as possible and for as short a time as possible. Never throw the water away! You can use it for making cream soups, gravies, and sauces. You should boil leafy vegetables about 5-10 minutes, root vegetables such as turnips, parsnips, carrots 20-30 minutes, beets as much as 45 minutes depending on their size.

A post card request to the Western Division Health League of Canada, 111 Avenue Road, Toronto, will bring you a free copy of its authoritative vitamin chart.

A FAMILY AFFAIR

A freight train pulled out of the yards at McAlester, Okla., with this crew: V. A. Drumb, engineer; V. A. Drumb, Jr., fireman; R. L. Drumb, conductor; and twins, Leo and Elmo Drumb, brakemen. The engineer was the father of the fireman, the brother of the conductor and the uncle of the brakemen.

VILLAGES DESTROYED

Since the start of the war 366 Polish villages have been completely wiped out, the ground ploughed up, and all inhabitants killed, according to information received by Victor Podolski, Polish minister to Canada, and made public by him.

Buy War Savings Stamps Regularly.

Protein For Poultry

Is Going To Present Problem For Raisers This Year

Never before have producers been obliged to worry as to just where they would get that ingredient in order to blend suitable live stock or poultry rations. Proteins and carbohydrates and minerals and vitamins have all been discussed in an academic or detached manner. Millers and feed manufacturers have pretty well taken care of the situation, but the poultry raisers will have to settle down and to a very large extent, solve the problem themselves.

It is not a simple problem to solve. Animal and vegetable proteins are both required, and how to get these in sufficient volume to develop and maintain in production the unprecedented hatch of chicks this year is something that calls for keen intelligence and outstanding farm management.—Farmer's Advocate.

SMILE AWHILE

Distracted Mother (to policeman)—Oh, officer, I've lost my little girl.

Policeman—What is she like? Distracted Mother—Well, she has her father's nose, but otherwise she's the image of me when I was a child.

Captain Jones (introducing an acquaintance to his old aunt: "This is my old friend Jones. He lives on the Canary Islands."

"How interesting," murmured old aunt, and gathering all her wits, she added: "Then, of course, you sing."

Husband (irritably)—That's the second time you've asked what my trumps are, dear.

Wife (sweetly)—Well, you want me to show a little interest in the game, don't you, dear?

"Stand up, soldier."

"I am, sir, in the uniform that makes you think I'm sitting down!"

Two men, both noted for their caution when it came to money, met on the street.

"Well, well," said one, "fancy running into you like this. I was just looking for some one to lend me \$10."

"Is that so," replied the other. "Well, it's a nice day for it."

Diner—Waiter, please take this chicken away. It is actually so tough it seems to be made out of stone.

Waiter—Nothing strange about that, sir. It's a Plymouth Rock.

Servant: "The doctor is here to see you, sir."

Absent-Minded Professor (in bed): "Tell him I can't see him. I'm ill."

"You've heard about the two Scots who drowned in Loch Lomond?"

"No."

"Very sad. Each lost his life when he could stay under water longer than the other!"

"Well, I'll be going now. Don't trouble to see me to the door."

"No trouble at all. It's a pleasure."

"And what is the child's name?" asked the minister.

"Shirley," replied the father.

"Shirley?"

"Yes, sir, after the famous Shirley Temple."

"Yes, yes, of course," said the minister. "Let's see, who's the preacher there now?"

She poetically: "Isn't that sunset glorious, Harold. The hues of red and gold are nature's own efforts in picture-making. What—"

He: "Yes, dear, it puts me in mind of something, too. I can't think whether it's streaky bacon or a plate of sliced tomatoes."

Recruit: "The sergeant is always picking holes in me."

Corporal: "Well, you came here to be drilled, didn't you?"

Johnnie was visiting his uncle's farm. Among the animals was a young colt. The boy gazed at him long and earnestly.

"What do you think of him?" the uncle inquired.

"Why—he's all right, I guess," answered Johnnie, "but where's his rockers?"

ALASKA WAS GOOD BUY
The Alaska salmon industry will produce this year, it is estimated, over 5,000,000 cases of packed salmon with a valuation more than seven times the amount paid Russia for Alaska in 1907.

Aircrew Training

Men From Various Parts Of The World Make Up The Student Body
A navigator who saw action against the Japs in the Aleutians, three soldiers who returned to Canada for aircrew training, two air force sergeants and an airframe mechanic, all repatriated to Canada for pilot training, Englishmen, Welshmen, Scotchmen, an American and an Irishman from Eire, make up an unusual class of student pilots at No. 19 Elementary Flying Training School, Virton, Man. It is a significant picture of just what the British Commonwealth Air Training Plan means.

Hailing from Arborg, Man., Flying Officer Len Shebeki, who has repatriated from a navigator to a pilot, spent a year in Alaska on bombing missions against the Japs in the Aleutians. "The men of my squadron were flying and working under adverse conditions but morale was very high," observed Flying Officer Shebeki when interviewed. "In a year of close contact with squadron members, I never heard an angry word spoken between the men." Shebeki lived on a farm with his parents for 23 years, taking a prominent part in activities in the Arborg district. An enthusiastic agriculturist and graduate of the University of Manitoba, he won the Canada Mating Cup at the Provincial Seed Show in 1936 and the Ian McPhail Trophy (Junior Seed Growers), 1937. At the University of Manitoba he won the Lieutenant-Governor's Gold Medal in 1941. A sister, Rose Shebeki, serves in the Canadian Women's Army Corps.

Sgt. Derek Horne, 1527 Clive Dr., Victoria, B.C., in the Canadian Army since the outbreak of war came back to Canada for pilot training. Like him, LAC J. V. Grot, Hanna, Alberta, traded the army khaki for air force blue and was repatriated to Canada. Two years overseas with the Canadian Army, then back to Canada for pilot training is LAC J. A. Stille's service career to date. He lives in New Westminster, B.C.

Two air force wireless operators, Sgt. J. R. Smiley, Odrift, Ont., and Sgt. J. E. Taylor, Athabasca, Alta., got their chance to fly when they repatriated overseas and recently returned to Canada.

Up to now LAC George Goodwin, Vancouver, B.C., turned his talents to keeping aircraft in fighting trim while overseas; his ambition now is to fly 'em.

Are Now Fit

Re-Examined For Military Service 19,182 Men Were Passed

From 44,539 men found physically unfit for military service on examination by private physicians, 19,182 have been found fit on re-examination since Oct. 31, 1942. Labor Minister Mitchell said in a written reply tabled in the House of Commons.

Included in those re-examined and found fit were 5,678 men previously found fit but re-examined because of doubt of their medical category. Those subsequently found fit were called for service, except for those granted postponements.

HOME SERVICE

TENNIS IS A GOOD GAME AND FINE EXERCISE

Tennis is a game for all ages, unless of course, your doctor has advised against exercise. Young and old find it thrilling and stimulating competition packed with enjoyment for its own sake. Exercise in the open air, combined with fun—that is tennis. Could anything be more healthful or desirable? And anyone with perseverance and enthusiasm for the game can learn to play.

It is quite true that to become a tennis champion requires speed and a high degree of endurance. But not all want to become champions. The majority prefer to play the game for the sake of the game, making it as mild or as strenuous as they choose to play.

Our 32-page booklet is extremely helpful not only for the beginner but also for the experienced. It gives all sorts of pointers and is written by a well-known authority of the game. Send life in color for your copy of "Develop Correct Tennis Form" to Home Service Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg, Man. Be sure to write plainly your name, address, and the name of booklet.

Samuel Colt, inventor of the revolver, made a wooden model in 1829.

Two Books in One by ANN ADAM
Lunch box ideas and food saver techniques, combined in one book, as foreword by Dr. L. B. Peit. It's the Appleford.

LUNCH BOX AND FOODSAVER BOOK
Tells how to get new variety and nourishment into your lunches. Describes practical new shortcuts—new tips on packing. Gives 166 different sandwich lunch combinations.

Shows How to Save
food and money by taking base care of perishables. Gives hints on how to prepare for transforming leftovers into new dishes in the intervals of new food conservation, this book is bound to be a treat. For your copy, postpaid, send only 15¢ along with a 3-cent stamp to the publisher.

Recipe Of The Week

ALL-BEAN MEAT BOLL UP

1 1/2 cups All-Bean
1 1/2 cups buttermilk
1 1/2 cups flour
1 1/2 cups shortening
3 cups ground cooked meat
1 1/2 cups tomato catsup
1 1/2 cups salt
1 1/2 cups baking powder
1 1/2 cups soda salt

Soak All-Bean in buttermilk. Sift flour, baking powder, soda and salt together. Cut in shortening until mixture is like coarse corn meal. Add soaked All-Bean; stir until dough follows fork around bowl. Turn onto floured board; knead slightly; roll or pat into rectangle 1/2 inch thick. Combine meat, catsup and salt; spread in thick layer over dough. Roll like jelly roll; place in baking pan and bake in moderately hot oven (425 degrees F.) about 30 minutes. Serve with Green Pea Sauce, if desired.

GREEN PEA SAUCE
2 tablespoons butter
2 tablespoons minced pimiento
1 1/2 cups peas
1 1/2 cups salt
1 1/2 cups shortening
1 1/2 cups tomato catsup
1 1/2 cups salt

Make white sauce using butter, flour and milk. Add pimiento, peas and seasonings.

First Canadian Congress Is Held By Ukrainians

Winnipeg. — The first all-Canada Ukrainian Congress in its resolutions passed unanimously at the closing session, appealed to Ukrainian Canadians to continue to make ceaseless efforts for an early and decisive victory for the Allied Nations and went on record as being opposed to all forms of totalitarianism and all they stand for.

The total number of delegates who attended the congress was 715 men and women, of which number about 100 attended as guests.

P. Lazarowich, of Edmonton, presented the resolutions. Expressing explicit confidence in leadership of constituted authorities, a resolution said, "this congress stands pledged to be ever ready and calls upon every Canadian, particularly represented by this congress, to fall in line and give the utmost support on every call by those in authority."

The resolution opposing totalitarianism further said "that Ukrainian Canadians stand shoulder to shoulder with other Canadians, and be ever ready to put forth every effort to prevent the infiltration of any part of totalitarian philosophy into our policy, during the present war, and during the post-war reconstruction."

The forbears of Ukrainian Canadians have been traditionally a democratic people, whereas totalitarianism, be it Nazism, Fascism or Communism, is the very antithesis of democratic principles."

A four-point resolution on the winning of peace said that in the interest of a durable world peace and stability it was necessary to recognize the fundamental principles of freedom for all peoples and nations; that the great Allied leaders have approved of the principles of the Atlantic charter and the four freedoms, and that it was a duty of every Canadian citizen to exercise his democratic privilege in a united effort that these principles be observed.

This congress takes an active interest in the application of the principles:

1. The right of all peoples to choose a form of government under which they will live.
2. That changes must accord with the freely expressed wishes of the people concerned.
3. The establishment of a peace which will afford to all nations the means of dwelling in safety within their own boundaries and which will afford assurance that all the men in all the lands may live out their lives in freedom from fear and want.
4. That the Ukrainians should receive equal treatment with other recognized nations, as a free and united member in the family of European nations.

Congress urged all Ukrainian Canadians to give their uninterrupted services in all branches of essential war work and food production, and that every participant of the congress offer leadership to Canadians of Ukrainian origin in lending to our fighting men comforts and assistance, and that support be given to the Canadian Red Cross and auxiliary war agencies.

A tribute was paid to all Canadians who have given their lives in defence of Canada and for a better world. This resolution said that through the Ukrainian religious and social organizations, and the press, assistance in re-establishment and readjustment of bereaved homes and families should be extended to all who are in need.

TO DEFEND ITALY

Germany Has Sent Reinforcements To Help Against Invasion

London. — German reinforcements have been sent to Italy the past few weeks and formations of Nazi troops are stationed not only on the mainland but on Sicily and Sardinia, it was learned.

The forces were in addition to Luftwaffe units already operating from various points in Italy and her adjacent Mediterranean islands.

Military circles believed the total strength of Axis forces in Italy was between 300,000 and 400,000, including 15 to 20 Italian divisions and five or six German divisions. There was little indication that the Italians had yet called home some 30 divisions from the Balkans to defend the motherland.

Reports Nazis speedily were bolstering the invasion defences of the southern Axis partner came as a German despatch promised aid to Italy "in case of decisive battles on European soil."

Queen Elizabeth Inspects Dragoons

Queen Elizabeth with the officer in charge of the Royal Canadian Dragoons' guard of honor at Her Majesty's recent inspection of the Toronto Scottish and Black Watch.

P.F.R.A. For All Provinces Has Been Suggested

Ottawa.—Application of provisions of the Prairie Farm Rehabilitation Act to all Canada and the immediate survey of Canada's national resources with the object of providing employment and promoting a better balanced economy were the principal recommendations in an interim report of the House of Commons construction and re-establishment committee, tabled in the House of Commons by Gray Turgeon (Lib., Carleton), committee chairman.

The committee's work is continuing but it submitted suggestions agreed upon so far to permit early action.

"Our studies have convinced us that in many respects Canada's agricultural life would be greatly improved if the general provisions of the Prairie Farm Rehabilitation Act could be applied to all Canada," the committee reported.

That act, passed when the prairie provinces were suffering acutely from drought and price depression, provides for federal assistance in soil surveys, in construction of water conservation projects like stock-watering dams and irrigation systems, in taking sub-marginal land out of production, in creating community pastures, and in educating farmers in scientifically tested methods of operation for particular conditions.

"Your committee feels that a proper survey of Canada's natural resources should be undertaken now," the committee reported, "in order to ascertain the nature and extent of such resources, their location with respect to existing transportation facilities, their suitability for post-war requirements of the Canadian people, and for post-war industrial development and settlement, with the dual purpose of providing post-war employment and a better balanced Canadian economy."

New relations must be established between government and industry and between management and labor within industry, the committee reported. It said it proposed to present a major report on this subject.

Further study is being given to the fishing industry, to the coal industry, and to agriculture.

"Your committee is strongly of the opinion that every member of the armed forces and the merchant navy is entitled to be assured that parliament and government will be prepared to do what lies within their power to prevent any recurrence of mass unemployment in Canada," said the report.

CANNOT LEAVE CANADA

London, Ont.—Students of military age in Canada are being refused permission to attend universities in the United States, it was learned here from national selective service officials. Several Canadians, winners of scholarships to U.S. universities, have been forbidden to leave Canada, it was said.

Buy War Savings Certificates

MUST BE UTILIZED

Supply Of Supplementary Feeds Needed For Increased Livestock Production

Calgary.—Because of the tremendous development in livestock production throughout the Dominion and because of the importance of that development to Canada's war effort, every avenue must be explored to utilize fully the supply of supplementary feeds, F. W. Present, Canadian feeds administrator, told members of the milling and feed manufacturing industry, meeting in Calgary.

The meeting was attended by representatives of milling companies and feed manufacturing concerns and the first action taken was to set up a body to be known as the Alberta Feed Manufacturers' Association, its purpose to establish standards in feed and to foster and develop consumer confidence with a resultant consumer demand.

PRESENTS MEDALS

Queen Elizabeth Presides At Investiture In Absence Of The King

London.—The Queen, the first woman to preside at an investiture since Queen Victoria, presented the Victoria Cross to Wing Cmdr. Guy Gibson, leader of the raid on the Mohne and Eder dams last month, and decorated six Canadians who participated in the daring aerial attack.

In the absence of the King, who was in the Mediterranean area, Her Majesty congratulated the recipients and said the King had asked her to express his regrets that he was not able to be present.

Her Majesty wore a large spray of pink roses on her belt dress on the occasion. She was hatless.

Mme. Chiang And Her Ottawa Host

While she was in Ottawa, Mme. Chiang Kai-shek was the guest of Canada's governor-general, the Earl of Athlone, pictured here as he welcomed her to Ottawa. China's first lady addressed a joint session of parliament.

Conceiving The Plans Now Put Into Action

Invasion plans made when Winston Churchill and U.S. Chief of Staff General George Marshall were in North Africa recently, are now taking shape. Here are the two of them talking over the situation with General Bernard Montgomery (right), of the British Eighth Army.

Air Vice-Marshal

Air Commodore Frank S. McGill, since January air officer commanding No. 1 training command, has been promoted to air vice-marshal.

Youth Labor Is Now Subject To Transfer Order

Ottawa.—Labor Minister Mitchell announced in the House of Commons that increased control has been taken over the employment of youths by making those 16, 17 and 18 years old subject to compulsory employment transfer orders, in the same manner as men in the age groups liable for military service. Previously compulsory employment transfer provisions were restricted to single men between 19 and 45 and married men between 19 and 25.

The minister said that the employment of a bona fide school teacher in any other occupation, without the issuance of a special permit, has been forbidden. Such special permits will be issued by national selective service only in accordance with conditions and directions approved by the labor minister.

Beginning a review of his department's work during consideration of 1943-44 fiscal year estimates, Mr. Mitchell said that to provide for fuelwood-cutting operations—in view of a threatened shortage in the coming winter—selective service officers have been authorized to give compulsory direction to the employment of men between 16 and 65 years in this work.

Labor Minister Mitchell told the house the Canadian manpower policy was the best "that can be devised."

In a detailed statement made as the house began its review of 1943-44 labor department estimates, Mr. Mitchell described the distribution of manpower and womanpower resources, the employment of Japanese, conscientious objectors and prisoners of war, the demands of the armed forces and war industry and steps taken to ensure agriculture, mining and other vital activities were provided with workers. He warned that shortages of labor would continue as long as the war.

DRY GAS FOUND

Victoria.—Dry gas has been discovered in the Fort Nelson area of British Columbia, Premier John Hart announced, and will be used by United States forces in that area for light and fuel purposes. U.S. army engineers located the gas while searching for water. Fort Nelson is in the Peace River district, through which the Alaska military highway runs.

Germany Orders Evacuation Of Ruhr Civilians

London.—Germany has ordered the evacuation of 3,000,000 civilians from the bomb-shattered Ruhr and massed more than 1,000 fighter planes—90 per cent. of her entire fighter strength—in western Europe for a desperate attempt to fend off relentless Allied bombing fleets, European reports said.

Berlin despatches to Swiss newspapers said that the evacuation of non-essential civilians from the Ruhr, rocked by more than 10,000 tons of bombs in the past month alone, had been ordered completed by the end of last week with German authorities frankly acknowledging that many inhabitants of the devastated valley had "lost their nerve."

German propaganda broadcasts, under a new policy of publicizing air raid damage, said the R.A.F. and the R.C.A.F. had "practically erased" the city of Krefeld, on the western rim of the Ruhr, and reported the populations of both the Ruhr and the Rhineland, together constituting Germany's principal source of arms, had been subjected to "unbelievable raids."

Fully realizing how much is at stake, Germany has mounted at least 30,000 anti-aircraft guns and tens of thousands of searchlights, in addition to the fighter planes in western Europe, largely along a belt 200 miles long and 20 to 50 miles deep stretching from the North sea along Germany's western borders, according to information reaching Britain.

The fighter strength along the Ruhr hinterland alone has grown more than doubled in the past year and several hundred planes were believed to have been rushed from Russia to western Europe in recent weeks. One estimate was that Germany already have three times as many fighters in western Germany as they did in Tunisia at the height of the North African campaign.

More than 1,000 heavy anti-aircraft guns from 88 to 135-millimeter caliber were reported to have been set up in the Ruhr, including at least 300 concentrated around Essen alone. Probably double that number of light guns of 40 millimeters or less also have been mounted there. Cologne and Bremen were estimated to have at least 500 flak guns each.

Searchlights in the Ruhr valley probably total at least 500 and large cities, such as Frankfurt and Cologne, are believed to have 200 each for their own immediate defence. Penetrating this "Magnet line" of the air, Canadian and British night raiders now encounter clusters of 10 to 30 searchlights every five miles. With the night fighters and guns, these make western Germany the most formidably-defended fortress in the world against air attack.

British experts reported that well over 1,500,000 Germans now are tied down in western Europe manning the flak and fighter defence—including full-time A.R.P. personnel. Guns guarding some of the more important cities are mounted on 200-foot-high concrete "flak towers," miniature forts with accommodations for hundreds of troops.

The Germans also were said to be making increasing use of camouflage, with whole areas of large cities being altered to make parks look like city streets and large lakes being covered with green netting to prevent them from serving as landmarks.

RECOMMEND LOANS

Medical Association Thinks Federal Government Should Help Needy Students

Ottawa.—The Canadian Medical Association, in a submission commenting on the draft health insurance measure before the House of Commons' social security committee, recommended that bursaries or loans be made available by the federal government to brilliant but needy medical students.

The association urged that federal grants-in-aid to the provinces under health insurance should include aid in the fight to conquer cancer.

Grants should be broad enough to provide for post-graduate training of physicians. They should also provide for medical research, as outlined by the National Research Council, and for expansion of industrial medicine.

GOVERNMENT GRANTS

Ottawa.—Government grants to national organizations which have foregone the privilege of making public appeals, total \$249,266 so far this year, War Services Minister LaSalle reported to the House of Commons.

W. J. BARTLETT, PUBLISHER

Blaimore, Alta., Friday, July 2, 1943

Mrs. E. Elliott, of Chapman Camp, B.C., was a recent visitor with friends in Blaimore.

Mr. and Mrs. G. Meffan left during the week to holiday at Vancouver and other coast points.

A butterfly, a wasp and a bee were noticed in Blaimore during the week, about the first for the season.

The Macleod Gazette appeared to be the only True Blue paper in Canada this week—stamped edition.

Mark that down, please. We have had one really fine day since March 1st, that was Thursday, July 1st.

Tim Buck is billed to speak in The Pass on Monday, July 12th, at a meeting in the Columbus hall at Blaimore.

The Duke of Windsor, governor of the Bahamas, celebrated his forty-ninth birthday on Wednesday of this week.

Calgary and Edmonton were without hard liquor for the last two days of June and July 1st. Kinda tough, but maybe they'll get over it.

George Burles, who is stationed at Kingston, Ontario, is home on furlough with his parents north of Cowley, Mr. and Mrs. P. S. Burles.

In a vote for president of the Blaimore Local Union of the U. M. W. of A. taken on Wednesday, W. A. Arland defeated Delbert Ennis 276 to 68. The new president will assume his post on the 15th.

Dr. Samuel Johnson was anti-pathetic to everything Scotch except the whiskey, it seems. In one house at which he stopped on his famous tour of Scotland, his hostess asked him how he liked the haggis. "It's very good for pigs," he replied tartly. "Then, Doctor, do let us help you to some more?" she urged with a smile.

Mr. A. L. R. Davidson, manager of the Blaimore liquor store, is relieving manager at the Lethbridge store during July. Mr. Bourne is carrying on in charge of the Blaimore store, with Mr. S. White as assistant for July. Mr. Binns, who had been relieving Mr. Davidson here for the month of June, returned to Calgary on Thursday.

At a recent meeting of the Coleman Lions' Club, Mr. Harold Chamberlain, of Blaimore, gave a most interesting address on the prototype self-respirator as used in mine rescue work. It was decided during the meeting that in the early fall the Lion members would visit the Blaimore mine rescue depot to view the modern mine rescue equipment.

Restaurants in some British Columbia localities have decided to inaugurate an extra meatless day. The first city to do this was Prince Rupert, where restaurant operators decided voluntarily to stop serving meat on Friday. Next came Trail and Rossland, and others are following suit. They have also decided to serve steaks on Mondays and Wednesdays only.

Mother: "Maud, were you a good little girl at church today?"

Maud: "Yes, mother. A man offered me a big plate of money, and I said 'No, thank you!'"

OUT FISHIN'

A fellow isn't thinking mean
Out fishin'.

His thoughts are mostly clean
Out fishin'.

He doesn't knock his fellow man,
Or harbor any grudges then.

A fellow's at his best when
Out fishin'.

The rich are comrades to the poor
Out fishin'.

All brothers of a common lure
Out fishin'.

The urchin with his pin and string
Can chum with millionaire and king.

Vain pride is a forgotten thing
Out fishin'.

A fellow gets a chance to dream
Out fishin'.

He learns the beauties of the stream
Out fishin'.

An' he can wash his soul in air
That isn't foul with selfish care.

An' relish plain and simple fare
Out fishin'.

A fellow's glad to be a friend
Out fishin'.

A helping hand he'll always lend
Out fishin'.

The brotherhood of rod and line
An' sky an' stream is always fine.

Men come real close to God's design
Out fishin'.

A fellow isn't plotting things
Out fishin'.

He's only busy with his dreams
Out fishin'.

His liveli is a coat of tan,
His creed to do the best he can.

A fellow's always mostly man
Out fishin'.

A twenty-bed municipal hospital is being erected at Olds, to cost in the neighborhood of \$50,000.

Gilbert Cousins, of the coast, is a visitor with relatives and friends at Bellevue. He is looking well.

Macleod's annual stampede was held Wednesday and Thursday of this week, and was pronounced a great success.

The Rossland Miner, weekly newspaper in Rossland, B.C., for the past 48 years, has suspended publication for the duration of the war.

Pete Legrandeur, well known Pincher Creek district cowpuncher and roughrider, paid a visit to Blaimore on Wednesday last before heading for Calgary, where he is to take a prominent place in Stampede work.

Many availed of the beautiful weather of July 1st to take motor trips. Some journeyed to Fernie, Cranbrook and other points west, while many others headed for Macleod, Lethbridge and Waterton.

Every town seems to be celebrating July 1st in some form or other except Pincher Creek. Most of our past leading citizens are in the cemetery and the ones that should take their place are dead, too. "Tis a sad world,"—Pincher Creek Echo.

There isn't anything can pep up a person like meeting a real old-timer. That was our experience during the week on meeting a former resident of Bellevue, but now living at the Pacific coast, and away back fifty years ago a friend and school chum of ye editor. Next door neighbors, we could exchange marbles by a slight throw from window to window. These are the real days to look back to, and every thought of it makes one regret ever thinking of old age.

Ontario's provincial election will take place on August 4.

Mr. and Mrs. G. A. Passmore are now residing in Vancouver.

Born to Mr. and Mrs. S. Pinotti, of Coleman, on Wednesday, June 23rd, a boy.

James Gray, of the Home Guards, Medicine Hat, is spending a few days at his home here.

Herbie Mah plans on spending the greater part of next week in Calgary, where he will take in the Stampede.

Mrs. J. K. Ringland has left Lethbridge to join her husband, Pilot Officer Kenny Ringland, at the Atlantic coast.

ACPO Sid White, commanding officer, and ACPO Don MacPherson, adjutant of the local Air Cadets, returned this week from a two-week instructional course, held at No. 7 SPTS, Macleod.

SPELLING NAME OF WELSH TOWN NO TRICK AT ALL!

Every radio announcer at some time or another gets into trouble with his listeners over pronunciation. In Wales there is a delightful little village named Llanfyllwngwlllogogeryllandrywllantisiilogoch. A few weeks ago David Grenfell, the chairman of the Welsh committee in the British house of commons, remarked that he didn't like the way BBC announcers pronounced the name of this dainty morsel of Welsh countryside.

He went on to explain that while many announcers pronounced fancy French, German, Spanish and Russian and other continental names reason-

ably well, few of them could pronounce Welsh words beginning with "LL" with any degree of fidelity.

Here's how you do it—according to Mr. Grenfell—just stick the tip of your tongue on the roof of the mouth and blow out both cheeks, like a goose. It's easier to do it right, he says, if you've got loose lower teeth!

The first all-naval wedding aboard HMCS Conestoga at Galt, Ontario, and the first ever in Canada aboard a training ship captained by a woman, took place last week when Probationary Wren Millie E. Johnson, training as messenger, became the bride of Coder Louis Hough, of the Royal Canadian Naval Volunteer Reserve.

Here is the evolution of a male's ambitions: To be a fireman, to be a circus clown, to be like dad, to be something noble, to be wealthy, to make ends meet and to get an old-age pension.

Do you know how many words in the English language mean crowd? Well, here are a few of them.

A crowd of ships is called a fleet; a flock of sheep is called a flock; a flock of girls is called a bevy; a bevy of wolves is called a pack; a pack of thieves is called a gang; a gang of angels is called a mob; a host of porpoise is called a shoal; a shoal of buffalo is called a herd; a herd of children is called a troop; a troop of partridge is called a galaxy; a galaxy of ruffians is called a horde; a horde of rubbish is called a heap; a heap of oxen is called a drove; a drove of hoodlums is called a mob; a mob of whales is called a school; a school of worshippers is called a congregation; a congregation of engineers is called a corps; a corps of robbers is called a band; a band of bees is called a swarm; a swarm of people is called a crowd.

A Bremen newspaper says that German women helping in the war effort are not expected to do any dirty work. Reasonable enough. What is the Gestapo for?—Punch.

THE C.P.R.'S PROGRESS

Montreal, June 24.—Statements recently made in the house of commons at Ottawa disclose the fact that the Canadian Pacific Railway over the past few years has been a good client of the Dominion government insofar as the latter has gone into the business of lending money to assist vital industries in performance of services absolutely essential to the carrying on of the nation's business.

Between the years 1931 and 1941, the Government advanced loans to the Company for various purposes, as follows:

During the summer of 1936 it was necessary to find work for unemployed men in many parts of Canada. To aid in this purpose the Government advanced to the Company a total of \$564,700. This loan was fully repaid by installments between January, 1938, and January, 1942. Over the period the Company paid to the Government interest at 2½ per cent, totalling \$47,567.42.

Between September, 1925, and March, 1936, the Government lent to the Company a total of \$1,370,000 to finance the betterment and repairing of railway equipment. Those were days when the depression had seriously reduced the Company's available funds for this work. The loan was fully repaid between January, 1938, and January, 1942. No interest was paid on this loan for the first two years, but later interest payments at 4 per cent were made to a total of \$170,854.79.

During the period 1935-38 the Government purchased railway equipment to a total value of \$5,730,000. This was sold to the Canadian Pacific under a hire-purchase agreement and the entire amount was repaid to the Government by January, 1943. This loan was interest free for two years. After that period the Company paid interest at 3 per cent, a total of \$610,978.61.

A similar arrangement was made for the purchase of equipment over a period including the years 1939 and 1941. The Government lent the Company a total of \$9,951,489.64 at 2½ per cent interest. This was fully repaid by December, 1942, with interest thereon amounting to \$844,990.53. Over the period until these loans were fully repaid therefore, the Canadian Pacific made a total interest payment of \$1,674,291.35.

The only other outstanding loans which the Company owes the Government are two which were made for the purpose of helping to keep the country's workmen employed between November, 1931, and January, 1933. The depression was then at its full height and it was necessary that something be done to check the growing unemployment. Large industrial concerns were approached with this end in view and the Canadian Pacific agreed to assist by going on with work that otherwise would have been left to more prosperous times when the Company's funds were better able to take care of it. For this purpose the Government advanced to the Company in 1931 a total of \$1,447,221, repayable on demand without interest when the Company resumes dividends at a rate of more than 5 per cent per annum. In 1932 and 1933 the Government advanced another million dollars, repayable on demand without interest before the Company pays any dividend on its common stock.

At other B.C. and Alberta centres golf equipment prices have been reduced 20 per cent.

IT PAYS!

SIXTY THOUSAND NEW ROAD MAPS FROM A.M.A.

Containing the last available official information on the highways of the province, 60,000 strip or sectional maps have just been issued by the Alberta Motor Association.

These dependable and accurate guides always are welcomed by the motoring public. They are obtainable at garages, service stations, hotels, auto camps and other official appointments of the A.M.A. Stocks also are available at branches of the A.M.A. in Edmonton, Calgary and Lethbridge.

Sponsored by the Edmonton branch, a new and separate map of the Peace River road system, including the new highway from Dawson Creek to Fairbanks, Alaska, also is being issued to motorists. This is probably one of the best northern sectional maps ever issued to cover the road system. It provides a great deal of valuable information concerning a highway that holds the centre of interest on this continent.

With more motorists than ever planning to make only short trips this

summer, in view of the appeals for conservation of fuel and tires, these sectional maps will probably be in greater demand than ever before.

The sectional maps not only show the road system and mileage, but also contain a lot of other general information required by motorists.

Seven asses, or horses, were seen giving the Blaimore skiway the once over early in the week.

For the car can serve by saving!

BUY WAR SAVINGS CERTIFICATES

"Jerry's Getting 'ell Tonight"

The top sergeant sang out just before the company dismissed: "All those fond of music step two paces forward!" With visions of a soft job in the regimental band, half a dozen men stepped out. The sergeant growled: "Now, then, you six mugs get busy and carry that piano up to the top floor of the officers' quarters!"

Uncle Charlie says that recently he ate a piece of cheese before going to bed, and immediately on getting to sleep he began to dream, and in his dream he fancied he had discovered a place in Ottawa, no less, where you can enter a sort of chamber and at once assume a sort of twilight sleep; and in the course of time you emerge a full-fledged captain, lieutenant-colonel or colonel, depending on your capacity to absorb the smoke of battle which is allowed to leak into the chamber. The moral is: Do not eat cheese on retiring.

Charlie: "What's good for my wife's fallen arches?"

Gordon: "Rubber heels."

Charlie: "What shall I rub 'em with?"

Mrs. White: "Mrs. Gray's husband didn't leave her much when he died, did he?"

Mrs. Black: "No, but he left her often while he was alive."

Joe Steffano: "Do you know what one cigarette said to the other?"

Pete: "No, what?"

Joe: "I hope you don't get lit tonight and make an ash of yourself."

Doctor: "Your husband must have absolute quiet. I'll give you a box of these sleeping pills."

Sis: "When do I give them to him?"

Doctor John: "You don't. You take them yourself."

Three Up

Three slightly deaf men were motoring from the north to London in an old, noisy car, and hearing was difficult. As they were nearing the city, one asked: "Is this Wembley?"

"No," replied the second, "this is Thursday."

"So am I," put in the third, "Let's stop and have one."

A Little Nonsense

Teacher: "Johnny, who was Anne Boleyn?"

Johnny: "Anne Boleyn was a flat iron."

Teacher: "What on earth do you mean?"

Johnny: "Well, it says 'in the history book that Henry, having disposed of Catherine, pressed his suit with Anne Boleyn.'"

Liked The Hard Way

Some business men are such slaves to habit that they continue to do work in accustomed ways when they might do it more easily by daring to be simple. The story about the experience of the man who ordered a ham sandwich at one of those streamlined shops may be only slightly exaggerated.

"Give me a ham sandwich," he ordered.

"A what?"

"A ham sandwich."

"Ham sandwich isn't on the menu, but I can give you a sandwich with ham in it . . . like a midnight special."

"What's a midnight special?"

"A triple-decker, with ham, cheese, tongue, bologna, tomato, lettuce, onion, mayonnaise, pickle, on raisin bread, toasted, with cole slaw on the side."

"Look! Have you any ham?"

"Yes sir."

"Could you place a piece of ham between two slices of white bread and serve same to me on a plate?"

"Why, sure!" Then, turning and addressing a soda-jerker, he sang out: "One midnight special. Make it one deck. Hold the cheese, tongue, bologna, tomato, lettuce, onion, mayonnaise, pickle and cole slaw, and make the raisin bread white, untoasted."

—Net Results.

Royal Canadian Air Force (Men's Division)

CALL FOR REDUCTION MOTOR LICENSE FEES

Relief for motor license holders in the form of lower license fees or some other measure to ease the situation will continue to be urged upon the provincial government by the Alberta Motor Association.

Meeting in Calgary recently, the A.M.A. directors decided to continue to press for some relief, despite the fact that licenses for the 1943-44 year already have been issued and paid for. A request by the A.M.A. to the province for a license cut has not been granted.

A special committee dealing with the situation reported to the directors that the vehicle owner who was entitled to the "AA" gasoline category was faced with a situation, that before operating the car at all, he had to contend with overhead costs for the license fee and insurance alone of over three cents a mile, so that his 120 gallons of gasoline for the year would cost approximately \$1 per gallon. The effect of this on 45,000 motorists in the province rationed on

the "AA" category only was reported to be serious.

The committee was instructed to press for a reduction in license fees for all vehicles in the coming year and a resolution was passed drawing the government's attention to the situation.

WORLD HAPPENINGS
BRIEFLY TOLD

The Gibraltar government has loaned to the United Kingdom \$2,700,000 free of interest for the prosecution of the war.

Airmail letters to members of the armed forces and civilians overseas now are all being carried by air, say post office officials.

Five hundred thousand postcards from prisoners of war acknowledging receipt of food parcels have been received by the Canadian Red Cross.

The government of Finland has resumed payment of its war debt to the United States, turning over to the treasury \$168,945.

S. S. Walley of Winnipeg, federal controller of fire wood, said that 500,000 cords of wood are needed in Canada for consumption next winter.

The United States will spend \$106,000,000 this year for war, it was disclosed in a report by Donald M. Nelson, A.A.R. production board chairman.

The frigate H.M.C.S. Waskesiu successfully underwent her trials at a West coast Canadian port recently and is now on service with the Royal Canadian navy.

The first all-woman aircraft salvage team has been formed in England among the WAAF. They can dismantle any type of plane, from a Moth to a Fortress bomber.

Ten thousand electric light bulbs were broken or stolen from Northern Ireland trains during 1942 and a campaign against vandalism has been started.

British shoppers who "alp the butcher or the grocer" an occasional shilling have been warned by the Food Ministry that such tips constitute "secret commissions" and are punishable offenses.

A Slim Two-Piecer

By ANNE ADAMS

Larger women like the "sult" look of a two-piece dress for summer-time street wear. Here is one of the most becoming and slimming versions you've ever seen, Pattern 4423 by Anne Adams! The panel-front jacket gives flattering lines. The skirt has slender but soft cut.

Pattern 4423 is available only in women's sizes 34, 36, 38, 40, 42, 44 and 46. Size 36 requires 5½ yards 36-inch fabric.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. "Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

FREAK LIGHTNING

A freak bolt of lightning played a few tricks in a Toronto church. The bolt hit the tower of St. Saviour's Anglican church, tore away one whole side of it, went through a trap door leading into the church, hopped and skipped along the rafters and into the pulpit. It then tore a strip of wood from a wall and finally grounded itself in the basement.

More than 50 A.T.S. girls at a central depot in northwest England have salvaged \$5,000,000 worth of flooded ammunition.

Veterans "Pull" President

"Pulling the president" is always a coveted assignment among senior locomotive engineers. Typical of the veterans who handled the train carrying D. C. Coleman, chairman and president of the Canadian Pacific Railway, on his recent western tour with W. A. Mather, Winnipeg, vice-president of western lines, and Montreal directors of the company, was Engineer Charles Lewis Fletcher, of Saskatoon, shown above being congratulated by President Coleman on a smooth ride. Engineer Fletcher, who joined the C.P.R. as a fireman at Moose Jaw in 1905, went to Saskatoon as an engineer in 1910 and has been on that division since. President Coleman renewed acquaintance with many old friends in engine and train service during his 8,100-mile tour, and at Penticton, B.C., was up at 5 a.m. to shake hands with conductor, trainman, fireman and engineer.

Only One Left

British Sailor Loses Every Member Of Family Through War

British Able Seaman Thomas Hamilton, 22, has lost all 12 members of his family since he joined His Majesty's fleet a month after Hitler invaded Poland. Visiting friends, he explained that a twin brother fell at Dunkerque, another brother, a flier, was killed over Berlin, and the remainder of the family—father, mother, eight brothers and sisters—were killed when German bombs struck Middleburgh, near Newcastle, England.

NEED LOTS OF GAS

On a fairly long round trip—up to 1,500 miles, say—one of these huge four-motored bombers would burn some 2,000 gallons. That's as much as 51 East Coast motorists get in a year's time under present "A" rations of 1½ gallons a week. Fifteen raids of this distance by 100 Fortresses would consume the contents of a medium-size (75,000 barrels) tanker. —Wall Street Journal.

Home Guard Stories

These Two Out Of Many Are Particularly Good

You may remember some of the stories of the Home Guard, says the Marquess of Donegal in the London Daily Despatch. There was the one Brigadier Whitehead told me against himself. He was inspecting the guard at the Admiralty Arch.

"What's your job in civilian life?" he asked the first man.

"I haven't one at the moment, sir."

"That's bad luck. Out of work, eh? What were you doing before, my man?"

"I have just returned from being H.M. Ambassador in the Argentine, sir."

Then there was the very new second lieutenant who pulled up a tired Home Guard for failing to salute.

"Don't you know you should salute an officer? What's your name?"

"General Sir Hubert Gough, sir!"

The territory of China, including Manchuria, Mongolia and Tibet, covers more than a quarter of all Asia.

Lessons To Census

Greater Number Of Unmarried Men Than Women In Canada

The Dominion bureau of statistics has reported that final census figures showed single persons constituted 54.1 per cent. of Canada's population of 11,506,655 in 1941, that Quebec showed the largest number of single persons in proportion to population and British Columbia the highest ratio of married persons.

The bureau said married persons accounted for 41.5 per cent. of the Dominion's population in 1941, widowed 4.6 per cent. and divorced 0.1 per cent. In 1931, 57.4 per cent. of the population was enumerated as single and only 35.3 per cent. as married.

The actual increase in the number of married persons amounted to 764,953 or 19.3 per cent., while the number of single persons showed a much smaller increase over 1931 of 279,156, or only 4.7 per cent.

Single persons of all ages represented 60.3 per cent. of the population of Quebec, and married persons 35.7 per cent. In British Columbia, 47.8 per cent. of the population was married, and only 44.5 per cent. single. Ontario also showed a large proportion of married persons, with 45.1 per cent. of the population enumerated as married and 49.4 per cent. as single.

All provinces showed an increase in the number of married persons since 1931. The number of single persons, however, declined in Manitoba and Saskatchewan, and showed only slight relative increases in Ontario and Alberta.

The distribution by sex showed that of the 6,230,568 single persons in Canada, 53.3 per cent. were males, a ratio almost identical to that in 1931.

SUNDAY SCHOOL LESSON

JULY 4

A PEOPLE IN DISTRESS

Golden text: They cried, and their cry came up unto God by reason of the bondage. Exodus 2:23.

Lesson: Exodus 1:1-22; 2:23-25.

Devotional reading: Psalm 61.

Explanations and Comments Jacob and his Family in Egypt, Exodus 1:1-5. These first five verses are a brief census of Jacob and his family when they came to Egypt, the fuller account being given in Genesis 46:3-27.

The Remarkable Growth of the Israelites, Exodus 1:6-7. The small beginning of the Hebrew people consisting of Jacob and his twelve sons, "seven souls" in all who first came to Egypt, has been recalled that their rapid increase might be impressively shown. They increased exceedingly in numbers during the centuries between Jacob and Moses, until they were numerically a great nation.

"Of the seventy, sixty-eight were males. If to the direct descendants of Jacob we add the wives of his sons and grandsons, and the husbands of the daughters and granddaughters, and all their servants with their families, it appears that the total number of those who entered Egypt was very considerable, several hundreds if not thousands. This fact, as well as the acknowledged profligence of the Hebrew nation, serves to account for their rapid increase in Egypt. At the time of the Exodus they must have numbered about three million." (Dummelow).

The Grievous Oppression of the Israelites, Exodus 1:8-14. Now (several centuries after Joseph's death) there arose a new king over Egypt who knew not Joseph. In Joseph's time Egypt was ruled by an Asiatic dynasty called the Hyksos, or Shepherd Kings. They were finally expelled and native rulers came to the throne. It was under one of this new dynasty that the Israelites were so oppressed.

God's Concern for the Oppressed, Exodus 2:23-25. In process of time the king of Egypt died, but his death brought no relief to the children of Israel whose bondage continued, who sighed and groaned in their affliction and cried to God for relief. And God heard, and remembered his covenant, and God saw the children of Israel, and God took knowledge of them.

"The important thing in religion is not the belief that God is omniscient, but the experience that God knows me." (James Denny).

The manufacture of carpets was introduced from Persia into France about the beginning of the 17th century.

King Cohen

Smiling at you here is Sergeant Sidney Cohen, 22, of the British Royal Air Force, who obtained the surrender of the Italian island of Lampedusa after he had made a forced landing there in his Swordfish plane. While on a mission from Malta, Cohen's compass developed "a fit of greenish" and he ran short of fuel while trying to get his bearings. Nearest land was Lampedusa, then under aerial bombardment by the Allies. Sergeant Cohen landed his plane at the airport there and to his amazement was given the formal surrender of the island. His R.A.F. buddies now call him "King Cohen of Lampedusa."

Her First Trip

Lady Used To Car Did Not Impress Bus Driver

A cool and severely dressed matron got on a motorbus with the other morning and started off wrong by offering the driver a 10-dollar bill. Then, when she finally managed to dredge a nickel up out of her bag, she didn't know where to put it. It hardly came as a surprise when she confided to the driver, "I've never been in one of these before, you know." Looking indifferently at this lamb sacrificed on the altar of civilian shortages, the driver said, "We ain't missed you none, lady." —New Yorker.

"Why can't I have breakfast in bed like Junior?"

Paper-Based Plastics

Waste Paper Plays A Most Important Part In The War

Waste paper is helping the R.A.F. in hundreds of ways. The amazing Mosquito aircraft, for instance; alternate layers of wood and specially treated paper form the ply which is largely used to build these machines.

Even doors and tables are now made from layers of a low grade type of corrugated paper, sprayed with resin and covered by an extremely thin sheet of wood. The navigator's table and compartment doors of some aircraft are constructed of this material.

Paper-based plastics are also playing an important part in aircraft and electrical construction, sometimes replacing metal. Specially processed paper produces this plastic material which is used to construct seals for fighter aircraft and a host of electrical components for tanks, planes and ships.

In the world of electricity, paper, owing to its non-conducting properties, is in ever increasing demand. War necessitates the use of many thousands of miles of cable, much of it insulated with paper.

These are only a few of the war jobs done by paper. To them should be added the millions of shell cases, bomb containers, washers, interior components of mines, the production of which uses thousands of tons each week.

Who can doubt the need for stringent economy in the use of paper and the necessity for salvaging even the smallest piece?

See horses make snapping noises which apparently serve as a means of communication, according to a scientist.

Western Made for Western Trade

Agents

The Blairmore Enterprise

Mrs. Harold Pinkney left on Sunday night's train for Merritt, B.C., where her sister, Mrs. J. Backman, is seriously ill.

Sergt. M. W. Cooke, of Coleman, who is with the Canadian Reserve Army, has been promoted to the rank of second lieutenant.

Mrs. Margaret McKinley was down from Calgary during the week on a visit to her father, Mr. John Baird, at the Cosmopolitan hotel.

The Blairmore Public Library will open on Saturdays only during the months of July and August, the hours being from 3 to 5 and 6 to 8 p.m.

LAC Becher Wilson and Wm. Granger, RCE, both stationed at Halifax, have been spending furlough at their homes here. Both are looking well.

At least thirty-three per cent of the weapons Britain is making in 1943 are new designs, and this percentage will be increased as the year goes on.

A gang of lumberjacks, after spending about five days in town, returned to camp on Sunday, all equipped with tennis rackets to be used as flyswatters.

L. H. Carver, former district representative of Burns & Co. Limited, now of Edmonton, is in The Pass this week, relieving Mr. George Nels, who has been called up for military service.

Mr. and Mrs. T. H. Duncan, of Bellevue, were visitors to this Pass metropolis on Wednesday afternoon. They had just returned from Calgary, where Mr. Duncan underwent arm treatment.

Mr. Scott has arrived and during this week entered upon his new duties as manager of the F. M. Thompson Co. stores in Blairmore. Mr. Thompson is retiring and, we understand, taking up residence at the Pacific coast.

Refreshingly frank is the comment on a menu at a city eatery. It advertises a special sandwich called the "breath of a nation." Contents of sandwich: garlic sausage. Which suggests the worn-out quip that there is no such thing as a little garlic.

F. Guerard has been installed as president of the Coleman Lions Club. Other officers are: Frank Aboussafy, first vice-president; Alex. Balloch, second vice-president; J. Van Maarion, secretary-treasurer; J. Chalmers, tail twister; W. McDonald, lion tamer.

Mr. and Mrs. Alex. Easton, of Coleman, announce the engagement of their youngest daughter, Lorraine Katherine, to Sergt. James S. Adams, of the RCAF, only son of Mr. and Mrs. Earl Adams, of Calgary, the marriage to take place in Coleman early this month.

In buying printed matter, remember that in giving orders to The Enterprise you are helping a local industry. Money earned here is spent here. Money paid to city printing firms does not help to build your own town. Employees of the local printing offices spend their money here.

Rev. Father Louis Viney, O.M.I., celebrated his first solemn high mass in his home parish at St. Patrick's church, Lethbridge, on Sunday morning. Father Viney was born in Lethbridge. He will be stationed at the St. Eugene school at Cranbrook, B.C., on mission work.

During the months of July and August, the junior and senior Sunday schools of Central United church will meet at 11 o'clock each Sunday morning. Will parents please have the young people and children attend whenever possible. Sunday service will be held as usual at 7.30 o'clock in the evening.

Magistrate and Mrs. J. W. Gresham returned Friday from a several weeks' visit to the Pacific coast. During their stay in Vancouver, they were called upon by Mrs. M. R. Lawson, widow of Constable Steve Lawson, whose murder took place at Coleman many years ago. Mrs. Lawson's daughter is shortly to join the army of bene-

Local and General Items

The Editor will be glad to receive letters for this section, regarding visitors, entertainers, parties leaving for holidays or short trips, bridge parties, teas, showers, presentations, anniversaries, etc. Phone items in to 11 or hand them in at The Enterprise office not later than Thursday evenings.

Rainfall in Newfoundland is reported lowest in seventeen years.

About twenty-five school districts in Alberta are advertising for teachers.

The interior and exterior of Central Meat Market have just been decorated by Pete.

Commencing July 1st, one may purchase two dozen pints of beer at the liquor store within a month.

Rev. Christopher Burnett, of Calgary, is occupying the United church pulpit at Fernie for the month of July.

Phillip D. Larbalestier, son of Mr. and Mrs. C. M. Larbalestier, of Blairmore, joined the air force at Calgary on Monday of this week.

One gathers that the people of the U.S. are getting fed up with John L. Lewis' win-the-war effort. We have a few of the same ilk in Canada.

Alfred Rhodes, RCAF, son of Mr. and Mrs. J. B. Rhodes, of Bellevue, is reported missing after air operations over enemy territory overseas.

Mrs. Vaughn, mother of Mr. W. A. Vaughn at Wolfville, Nova Scotia, celebrated her ninetieth birthday on Monday, June 28th. She is becoming quite frail.

At a special session of members of the Canadian Legion, BESL, on Tuesday night, new by-laws were approved as read. During the session the hat was passed around and \$30 was collected to be handed over to the local Red Cross.

Mrs. George Lewis, former resident of Coleman, passed away in Vancouver on May 17th last at the age of 49. She is survived by her husband, two sons and nine daughters; also forty grandchildren and fifteen great-grandchildren.

Mounted police are investigating two mysterious attempts at incendiarism at Hillcrest during the early hours of Sunday morning last. Little damage was caused. Coal oil was used in one case, being poured on the door of the Miners' Club.

A list of Crows' Nest Pass men, women and children who have neither caught or tasted a fish this season is to be published in mimeographed form shortly so that everyone will have a glorious chance to forget it. Nor will they see or understand the fish.

Through overlooking a small-type sub-head in a daily newspaper, The Enterprise was somewhat incorrect last week in stating that Foss Boulton, previously reported missing, was now for official purposes presumed killed in action. We regret that this should have occurred. Latest report has it that Foss is still missing, and there is hope he will yet turn up o.k.

Rev. H. J. and Mr. Bevan, enroute from Cayley to Vancouver, where Mr. Bevan has accepted a call to Trinity United church, were week-end guests of Rev. E. B. and Mrs. Arrol. Mr. Bevan delivered the sermon at the evening service at the local United church on Sunday evening. Before going to Cayley, Mr. Bevan was pastor of the United church at Coleman.

In connection with an advertisement of the Dominion Textile Company, which appeared in all Canadian weekly newspapers of issue around May 13th last, a contest was nearest layout, choice of type face, press work, etc., which affect the quality of typography. The judge was H. A. Nicholson, editor of Printer and Publisher, Toronto. Two of the prizes came to Alberta, The Coleman Journal and the Innisfail Province being the lucky ones.

Bill Huguel was down from Homer on Wednesday.

Because of a shortage of perambulators, the babies are up in arms.

George Lang is down from Creston on a visit to his sister, Mrs. J. Angus MacDonald.

Mrs. Mary Basso has been down from Kimberley for about two weeks on a visit to her parents, Mr. and Mrs. M. Sartoria.
